

Do you support the council's plans to create a natural wetland in Micheldever?	Do you have any comments about the proposed wetland?	Winchester City Council response (if required)
Yes	<p>This area is extremely wet and often floods, overflowing onto the road. How will this be tackled?</p> <p>The neighbouring properties also have septic tanks-how will this impact the wetland and how will the wetland impact on the septic tanks and wastewater treatment units. ?</p>	<p>The flood capacity of the site will increase as a result of the work and so risk of flooding will be reduced in the future.</p> <p>The foul sewage from neighbouring properties has been investigated and will not impact the wetland (and the wetland will not affect any existing septic tanks).</p>
Yes	<p>IS IT INTENDED ONCE CREATED TO BE SELF MAINTAINING? If not who is responsible for it and what is required?</p> <p>Will there be public access to it? Who will keep it clean and free for litter etc</p>	<p>It is intended that the wetland will become part of the natural landscape requiring minimal maintenance but the council's natural environment team will look after the wetland including annual strimming of the surrounding meadow and dredging of channels if required.</p> <p>There will not be public access to the wetland so it is not expected to be a litter problem.</p>
Yes	<p>Will the public have access? This seems like a great idea to allow the local primary school access and for them to do projects on pond life and biology?</p>	<p>No public access to the site is proposed but we would be open to facilitating educational visits for groups from the local primary school.</p>

Do you support the council's plans to create a natural wetland in Micheldever?	Do you have any comments about the proposed wetland?	Winchester City Council response (if required)
Yes	a good response to the build up in volume of water coming from the high levels of the village	
Yes	So pleased this flood land is going to be developed for something that will benefit the flora and fauna. Thank you.	
Yes	All positive	
Yes	A great idea. Please do more projects like this	
	<p>I think it is a fantastic use of the land</p> <p>Will it be accessible for us to use, like common land as the setting sounds beautiful to bird watch, stream paddle etc</p> <p>Assuming accessible, what are the plans for parking. Chilbolton is a car park in the summer because so many people use the site, so parking restrictions will be needed in the village</p>	There will be no public access across the site - just a visual amenity so no additional parking is proposed.
